IVORY COAST WANTS

The A.H.S. is embarking on a people to people good relations project. Back in February Mr. Dan Wolfe of the Sunset Chapter forwarded a letter to the Executive Secretary from Mr. John O. Bell, Political Advisor, U.S. Strike Command. Mr. Bell wanted to locate some hibiscus of a mauve shade - or violet - or lavender. These were wanted for the wife of the President of the Ivory Coast (West Africa). He had received the request from the wife of the American Ambassador to the Ivory Coast.

Details have been worked out to send plants in the container via air through official channels on May 19th. We are sending 1 John Tipton, 2 Lavender Sky, 2 Coppertone, 2 Brown Derby, and 3 Margarita plants. The plants are being given in the name of the A.H.S.

GOOFED

Before you write to the editor telling him he goofed, he knows it. No page numbers were left for the pictures. There are two pages "29", no page 25. On page 28 under Donaldson's ad the "2" part didn't pring. And in some of the Seed Pods the "7" on page 7 didn't come out. Please forgive us, it reads just as bad without the numbers.

-oOo-

Did you hear about the lady who sent her husband to the drug store? On the way he forgot what she wanted. He thought if he looked over the counters he might see something to remind him. About this time in walked a very stacked young lady in a mini skirt. He looked at her instead of the counter. As she stooped to pick up something from the floor he, snapped his fingers and said, "That's what I was to get - Bayer Aspirin."
